

A/R FINANCING WITH BUSINESSMANAGER®

Turn your receivables into working capital.

Cash flow challenges are a part of even the most successful businesses. Inconsistent payments and unpaid invoices are frustrating and can limit long-term growth potential.

Regardless of how well your business is operating, receiving payment for services rendered can be time consuming and costly.

If your growing business has business-to-business sales, but needs more consistent cash flow, A/R Financing may be the perfect solution.

With A/R Financing, AVB Bank will turn your Accounts Receivable into cash within 24-hours. This allows you to worry less about cash flow and more about growth.

KEY BENEFITS

- Your business gets the working capital it needs by funding on your invoices as soon as you submit them to the bank.
- No waiting 30-, 60-, or 90-days for payment.
- More flexibility than a traditional line of credit, including higher advance rates.
- Stop putting off critical equipment purchases or technology upgrades.
- Take advantage of supplier discounts for upfront or prompt payments.
